### **Description**

This list includes code numbers for all non-state actors that have participated in settlement attempts for ICOW territorial claims, or that are considered likely to do so. The list is meant to be compatible with the widely-used Correlates of War (COW) Project's interstate system membership list, which is used for all nation-state actors. The COW system membership list includes values less than 1000, so global or cross-regional actors in this list begin at 1000 and regional actors begin at 2000 (where possible following the same regional order and numbering sequence as the COW list).

For purposes of ICOW data coding, all of the actors in this list are inter-governmental organizations (IGOs), unless explicitly noted as being non-governmental organizations (NGOs).

### **Private Citizens**

999: Private citizen(s), not representing or acting on behalf of their governments

- If they are acting on behalf of a state government (as an envoy or other representative), code the actor as the state government itself.
